

ABOUT US

The quick brown fox jumped over the lazy dog into a shimmering pool of rainwater that had gathered since the last frost. Soft clusters of leaves fall without a plan to the ground, mirroring the unhurried chestnut thatch of the fox's dense coat. The fox looks to the west, only then realizing the horizon has begun to curve towards them. Perhaps they should not have jumped so soon. The hem of the pool expands indefinitely, ringing the sleeping dog and now worried fox.

TEAM & STRATEGY

The quick brown fox jumped over the lazy dog into a shimmering pool of rainwater that had gathered since the last frost. Soft clusters of leaves fall without a plan to the ground, mirroring the unhurried chestnut thatch of the fox's dense coat. The fox looks to the west, only then realizing the horizon has begun to curve towards them.

Perhaps they should not have jumped so soon. The hem of the pool expands indefinitely, ringing the sleeping dog and now worried fox. The fox and the dog free-fall off the edge into nothing, which is to say, they were fine.

“In order to be successful, any idea like this had to get out into the marketplace and had to get out there as quickly as one could get that technology to market and so it became imperative for us to find an environment in which to do that.”
